Subject: RE: Little Mere - Site Visit

Hi [redacted]

[redacted]

For the attention of Karl-Oemas Johansson

IP Refs EA/19 & EA/2 20023869 & 20023870

For the attention of the inspectorate. This is a copy of an e-mail sent to SPR. Life is currently a sensory at Little Mere. Here can they be allowed to do this sort of work for a project that is not consented. It is intolerable.

Your workforce where working past 13:00 today. 09/06/2023 [See Photo] also at 10:30 now morning this week my track was blocked as plant was being delivered, I had to access Crouse Road in the opposite direction from where I wanted to go. Also a couple of weeks ago my post was not delivered by Royal Mail as the track again was blocked, and my postman was refused access. All these breaches of the access agreements and working times have been reported to Joanna Young. My PO [redacted] is already purgatory thanks to SPR. Can you inform your teams to adhere to your policy's please. No one deserves this infringement on their lives, this is making me very ill.

Kind regards Mark Johnson
