Subject: Aquind plans portsmouth.
Date: 05 October 2020 22:02:11

I am emailing my objections to the Aquind plans that will affect Portsmouth.

The plans are vague, lacking clarity. Is this is unacceptable and unprofessional.

Portsmouth is a dense city and all green spaces need to be protected. To invade local allotments and sites of natural beauty and of ecological importance is totally unacceptable.

Repairing our climate is needed not further destruction.

Allotments and Portsmouth's open space play a vital role in the mental health of our city and this is never more important than during the current Covid pandemic.

Other possible routes would have less impact. This is a time to care for people and not look only to profit.

The Aquind plan should not go ahead.

Philippa Pettitt.
