[redacted] Portsmouth resident query

Dear Sir/Madam.
My name is Mark Stovold, I am a Portsmouth res dent, specifically of [redacted]
wh ch is going to be affected by the proposed Aquind Interconnector:

The sect on that refers to my street is "TSH/9/a" and "TSH/9/b"
There is a dotted yellow line which, according to the legend, means a "temporary stopping up of highway".

I would like to know exactly what this means - will my whole street be closed? If so, how long for? When will this happen? What compensat on will resdients recieve for the inconvenience caused?

My Wife and I have a [redacted] year old Son and a [redacted] year old Daughter. We are lucky enough to have have off-road parking for two cars. We both work part-time and need constant access to our driveway for school runs, shopping etc.

if this is going to affect my street the way that it appears t will do on the map (see link), then I believe there is a very strong case for resident compensation.

I would appreciate a prompt response to this message.

Kind regards, Mark Stovold
