Subject: Interconnector project

To whom it may concern,

I would like to protest most strongly at the proposal to disrupt and destroy this very special area of Portsmouth. The Milton allotments are an integral part of our city and not only encourage residents to grow their own produce and encourage young people to learn about the environment but also support the mental well-being of all allotment holders and their friends and families.

Surely the current pandemic has shown us just how vital it is to preserve green spaces and encourage people to protect the environment. Any proposal to damage this area is a complete scandal: who will benefit apart from wealthy corporate businesses? This will do nothing to benefit Portsmouth residents who already live in one of Europe's most densely populated cities.

I strongly urge and advise you to abandon any schemes which fail to protect Milton allotments and this area of our city.

With regards,

Rosie Dean
