Subject: Portsmouth power cables
Date: 05 October 2020 12:12:27

Dear Sirs

I am a Portsmouth resident and I would like to object to the siting of your cables in Portsmouth.

1. Why land this power cable at one end of the 2nd most densely populated city in the UK?
2. Using the Eastern Rd to bury the cable will cause massive traffic disruption.
3. Milton Common is one of only two large open spaces on the island (the other being the Common, which is about to be deeply affected by sea defence work) where residents can enjoy a bit of wilderness.
4. I cannot believe there are no other less populated places for it to land. Have you explored any ?

Tricia Howse
