Subject: Resident Objection - Portsmouth Aquind proposal
Date: 05 October 2020 08:53:42

Dear sir/madam,

I am writing to voice my objection to the Aquind proposal in Portsmouth. I have numerous concerns on the limited information I have heard so far.

As a resident and tax paying voter of this city, I am deeply concerned at the lack of information and consultation with residents. I am also an allotment holder and wildlife advocate. The negative impact and devastation this would cause is causing me much concern and I would like to implore you to reconsider. We have so many more options to invest in sustainable energies that work with nature instead of against it. I find it heartbreaking that the government of my time is not listening to the people for the good of the planet. In case you haven't seen the new Attenborough film on Netflix, we need to be investing in sustainable energy and protecting our green spaces and our planets precious biodiversity.

My request is that you stop plans & open a consultation with the Portsmouth city council & residents and allow us to engage and be involved in the decision making process.

Thankyou

Sophie Hui
Portsmouth resident
