I wish to add my voice regarding the Aquind proposal which has been foisted onto Portsmouth residents without any thought to engage fully with local people.
Is this really the best route for this venture? Portsmouth is the most densely populated city in Europe and is also an island city. We are at breaking point with regard to having housing, education, parks and open spaces for the almost 250,000 population.
And now Aquind are desecrating areas of the city known for their varied wildlife, nature reserves, parks, allotments and FOR WHAT???
Surely there are other sites which could have been chosen and also government agencies could have increased our own sources of energy such as wind farms, solar panels, and so on.
I cannot understand the central government's approval to this going ahead - I don't know anyone who supports this issue. LISTEN TO THE POMPEY RESIDENTS rather than riding roughshod over this - who profits in the end??
