Subject: Proposed cable route
Date: 05 October 2020 17:19:42

Dear Sir/Madam,

I strongly object to the proposed laying of this cable. I live near Bransbury park & have an allotment & can foresee no benefit to this area at all but more traffic issues & frustration. The allotment has helped my mental & physical health enormously through the covid lockdown & provided food for myself, friends & family. Losing such an asset would be a terrible blow for this area.
The traffic disruption is unthinkable, people will start avoiding trips into the town & at such a crucial point in the economic stability of the city just what finacial benefit will we be getting from this proposal? Surely if this is to go ahead it would be sensible to revisit the proposed route & consider the misery & disruption it would cause to the residents?
