Subject: Cable in Portsmouth
Date: 05 October 2020 08:36:45

I strongly object to the laying of cable on the eastern side of the city
Works of any kind cause disruption to daily life on our very densely populated island city
Traffic will be disrupted and affect schools , businesses and communications in general between different communities and families
I have a [redacted] daughter who does not live with me and I am frequently to and fro in and out if the city - it takes long enough anyway
In addition I support my elected representatives who form the council and advisers and it is their opinion that this scheme is not suitable for us
Citizens have rights
