Subject: The proposed new cable run down Portsea Island
Date: 07 October 2020 10:18:47

Dear Sirs,

I may be too late but I want to raise my objections to the above proposal. Firstly on the grounds of the enormous impact on the infrastructure and environment of the proposed route. This is an area which is a wildlife habitat. In these days of climate change and concerns about man's impact of our environment this plan makes no sense whatsoever. [redacted]

This project should not be allowed to happen

Jean O'Farrell, resident of Portsmouth
