Subject: Concerns regarding the Portsmouth interconnecter power cable scheme
Date: 07 October 2020 21:37:10

Dear Sir/Madam,

I am writing to you to air my concerns about the planned laying of the electric cable in Portsmouth and the disruption it will bring to the residents and city. The route of the cable and what is required to install it will potentially cause much damage to important parts of our community in a time where there is enough concern to deal with. Portsea is an island, and it seems to make no sense to land the cable at the southern shore of the island and route it through densely populated areas, when it could be lain either side of the island, either along the Langstone's coastline or on the bottom of the harbour channel...avoiding costly drilling and all that worry and disruption?

We are deeply opposed to this plan and there seems to have been very little or well publicised consultation about these plans.

What do you intend to do moving forward to alleviate this worry and reassure the residents affected?

Yours sincerely,
Alex Counsell
