From: [redacted]
To: Aquind Interconnector
Subject: Aquind interconnector through Milton Allotments, Portsmouth
Date: 01 October 2020 11:30:04

I have been advised that this is the address to voice my concerns and opposition to the proposed digging up and laying of wires/pipes under the Milton Allotments off Locksway Road.
Not only is this an environmental issue of grave concern, but also an insult to the many people who devote time and energy to cultivating the land and growing crops for themselves and the community.
There has been no consultation with the local community and the Portsmouth City Council is strongly opposed to this scheme going ahead in the second most densely populated area in England.
I want it on record that I oppose this scheme and the destruction of the Allotments in the strongest possible terms and will do all within my legal rights to prevent it from going ahead.

Sincerely

Robert Milner
