Subject: Access and disruption
Date: 05 October 2020 15:59:06

Dear Sirs
The proposed plans show a level of access that is totally unacceptable in terms of disruption to businesses, residences, individuals, road users, cyclists, walkers, wildlife and birdlife, especially around Langstone Harbour which is very important for migrating birds. To allow this to happen would bring total and unacceptable disruption to traffic movement on and off and around the island and its surroundings, in their various forms, for a very long period of time and to what advantage to the people of Portsmouth.
I object to this application very strongly and request that permission is not granted.
Yours faithfully
Peter Slee (Southsea Resident)
