I object in the strongest terms to this proposal. Portsmouth has very little green space and this proposal will affect much of it.

Aquind seek to have control over a large area of allotments with the ability to destroy plots without let or hindrance. They will damage Bransbury Park, Langstone Harbour and Farlingtion Sports Ground. They appear to be changing the plans at short notice, giving vague 'promises' that disruption will be minimal when experience shows that it will not.

There is no benefit to the people of Portsmouth. It is an ill-conceived, destructive proposal.
