Dear Aquind

I'm writing to you about the new planned route (through Milton Allotments), of the Aquind Inter-connector. After hearing about the recent change in the proposed route, I wish to put my view forward that I strongly object to the work now involving digging up the allotments through Milton.

There appears to be a complete lack of clarity and a swift U Turn from yourselves and overly-complicated and technical, changing plans. i.e. Allotment plots weren't being affected and now they are at risk of being cleared with trees removed and sheds etc being knocked down.

This new proposed route will directly effect the wildlife and the pollution and traffic levels in the surrounding area with have a huge impact on the local community and adding to the continuing problem we have with high levels of air pollution.

Portsmouth Island is heavily populated and to loose more historic green spaces would be devastating.

Please put these objections forward and reconsider your positions regarding these new proposals.

Regards

Mrs Amos
