From: [redacted]
To: Aquind Interconnector
Subject: Aquind Interconnector
Date: 06 October 2020 16:06:13

We wish to object to Aquind Interconnector landing in and being routed through Portsmouth.
There will be massive disruption to our city as well as destruction of nature and green spaces.
The proposed works will cause enormous disruption to the city.
Many local people feel threatened by Aquind's approach to project management and we feel confused by Aquind's communications and lack clarity.
We have shared our concerns with our local councillors and our Member of Parliament,[redacted].
Today our government has announced that in the next ten years all of the UK's energy will be derived from UK green energy sources, thus rendering the new cables superfluous.
Yours sincerely,
Mr K J Gardner
