To whom this may concern

I have been made aware of these proposals and the level of access Aquind are demanding and the disruption their work will bring are unacceptable and not right for this city and its residents.

In the past a simple accident on any of the arterial routes in and out of Portsmouth would cause massjve congestion for the best part of a day, works on this level will cripple the city for weeks, possibly months. This is absolutely unacceptable and I object very strongly against these proposals.
