To whom it may concern.

I would like to register my objection to the planned cable laying scheme through Portsmouth and District as proposed by Aquind.

Given the structure and population of the City, Portsea Island as a whole and the surrounding areas of the planned route, this location for landing and running the cables seems to me to be madness. The disruption and cost to the City, it's population and transport system would be enormous.

You have to ask would you allow this through London, if not, then not Portsmouth either. The population density is similar and the infrastructure older and more intricate.
What alternative and more rural routes have been considered? If none, why not. Surely a rural landing point and route would not only be less disruptive but also cheaper.

Please scare this ludicrous plan forthwith.

Thank you, Tony Stoneman, Portsmouth
