Subject: Aquind Portsmouth objection
Date: 05 October 2020 08:29:17

Please note my written representation herein to object to the planning application by Aquind for access for the proposed works.
The whole scheme is ill-thought. After laying sub-sea cables from France it is illogical that the last few miles cannot be continued up Langstone Harbour to the east of our city thereby reducing the impact on the lives and infrastructure of Portsmouth.

The level of access Aquind are demanding and the disruption their work will bring are unacceptable and not right for this city and its residents.
Regards
Tim Edwards
