Dear Planning Inspectorate Team,

I am writing to you to express my objections to the propsed aquind interconnector.
As a resident of Southsea and a daily user of the Milton Common area for leisure activities, an area used increasingly by a wide demographic of the local population since covid-19 has impacted us. I feel the destruction and disruption these plans would case out weight the negligible benefits, if any to local residents.
This area of green space with its abundance of nature is too precious to be damaged and disrupted in a city like Portsmouth that is so densely populated. Further the impact on the harbour, itself a SSSI should not be ignored.

Secondly this disruption caused to transport on the Eastern road and surrounding areas would have a significant knock on effect over a wider area with increasing congestion and journey times.

In light of this I strongly urge you to reject these plans and seek an alternative solution.

Yours sincerely
Simon Freathy
