Subject: OBJECTION TO PROPOSED AQUIND INTERCONNECTOR WORKS IN PORTSMOUTH
Date: 05 October 2020 22:55:06

Please note my strong objection to the proposed works for the new Interconnector that is planned to pass across and under land in Portsmouth.
I feel that this would have detrimental effect on the nature, wildlife and the well-being of Portsmouth residents particularly in the Milton area around Kingsley Road and the Milton allotments/Milton Locks.
I cannot agree that even with mitigation measures the impact will be negligible and not significant and urge the UK Government to protect us from this Project and refuse permission.
Mrs Teresa Dugan
