Subject: Milton and Eastney Power Line Formal Objection
Date: 30 September 2020 15:47:12

Dear Sir/Madam,

I am writing to make a formal objection to the planned power line works around Milton and Eastney, Portsmouth, Hampshire.

These works are planned for directly under priceless green space and allotment land. This land is invaluable for my family personally as well as many others, directly as allotment holders and indirectly for neighbours and residents. It provides a haven for much wildlife and adds to much needed environmental balance by contributing to dwindling green space within the city.

I am sure an alternative solution to putting this beautiful spot of land at risk is possible.

Please confirm your receipt of this email and your acknowledgement of my objection.

Sincerely,

Tabitha Gould
Local Resident and Allotment Holder
