Dear Chris,

London Resort consultation process

We write with regards to the proposed development of the London Resort at Swanscombe.

We note from the recent London Resort Company Holdings (LRCH) submission to PINS that in the Schedule of Consultation (document reference 8.2/Revision: 03) that Buglife, Kent Wildlife Trust and RSPB are all listed to be consulted on a monthly basis as appropriate. The omission of CPRE Kent from this schedule is noted and we ask for their inclusion as a matter of course please.

On behalf of our organisations, Jamie Robins emailed Will Coles at the Environmental Dimension Partnership (EDP) on the 12th April this year to express our willingness to meet with them, but this was not facilitated. In order that we can manage our resources accordingly, we wish to understand how LRCH are planning to programme the aforementioned monthly consultation meetings set out in the Schedule of Consultation for the remainder of the pre-Examination period.

We look forward to hearing from you.

Yours sincerely,
