Dear Sir/Madam,

This letter is in response to your request to ascertain whether LRCH have engaged with interested parties to warrant a further delay in their to the examination of their application. I can confirm that we have had NO engagement with LRCH in this period. I suspect this is common across other companies on the estates and the statutory bodies. Therefore, I would strongly recommend that the examining process proceeds in March. If the application fails examination, we need this 10 year blight lifted from us permanently. A recommendation to the secretary of state needs to be made to remove the NSIP status to ensure this ends.

Your sincerely

Peter Lethbridge
