Good Morning,

I can confirm that we have still had no contact from any representative of the London Resort Project about what they plan on doing as far as purchasing the land, or how our business will be affected by the actions of the new development.

As is the norm with the London Resort they claim to have plans in place for the occupants of the business park but have been radio silent.

Businesses here are desperate to know how we are moving forward. How are we meant to expand and grow our businesses if we have zero idea on what direction we could possibly be moving.

I hope the above helps whom it concerns understand the limbo we have been left in.

Kind Regards

Jake Hughes
