Dear Mr Taylor

The Hinkley Point C (Nuclear Generating Station) Order 2013 – SI 2013 No. 648
Application for a Non-Material Change in relation to the Hinkley Point C Development Site
Consultation under Regulation 7 of the Infrastructure Planning (Changes to, and Revocation of,
Development Consent Orders) Regulations 2011

In March 2013, the Secretary of State granted a Development Consent Order (DCO) authorising construction of a new nuclear power station at Hinkley Point in Somerset, known as Hinkley Point C, and associated development (Project). Over the past four years, NNB Generation Company (HPC) Limited (referred to in this letter as "EDF Energy") has been working with its delivery partners to ensure that the Project is delivered effectively and efficiently. As a result of this process, EDF Energy is now seeking consent from the Secretary of State to vary the provisions made in the DCO for infrastructure at the Hinkley Point C Main Development Site.

The application seeks consent for the following non-material changes, with further details provided in the Application Statement accompanying the application:
- the redesign of some of the permanent buildings;
- the erection of additional pipework along the underside of the temporary jetty to enable discharges from the site;
- an alteration to the alignment of the sea wall.

EDF Energy is carrying out consultation on this application. Please send any representations about the application by email to: HPCNuclear@pins.gsi.gov.uk, or in writing to: Major Applications & Plans, The Planning Inspectorate, Temple Quay House, 2 The Square Temple Quay, Bristol BS1 6PN.
