**Subject:** My ref WYLF-S57220 new schedule for work and transport  
**Date:** 12 November 2018 13:26:58

---

Dear sir - from Mrs Margaret Treacy, [REDACTED]

I am writing in response to the recent correspondence re new schedule for work hours etc in construction of the Wylfa Newydd - I live on the A5025 in Llanfaethlu - my house is very close to the main road and there are no plans for new road by me - just general update - all along this process I have been very concerned to the substantial increase in traffic - large lorries etc - that will be passing very close to my home .

I have voiced my concerns about this at various open surgeries held by you but did not receive any solid information just general guidance - no one seemed to know the exact plans.

Now from this latest information there is going to be an increase in both volume of traffic and the length of the working day and week so an increase in traffic noise . I would like to know if there is any thought for the local population as far as noise and inconvenience etc is concerned - are there any plans to compensate for the inconvenience and noise - there was mention one time of maybe enhancing windows maybe to triple glazing to lessen the traffic noise in my home - any comment would be welcomed.

There has been a lot of correspondence from you regarding what is wanted from me - re compulsory purchase of some land but nothing about what impact this will have on my day to day living .

As I am an old woman - I have lived here all my life - I can't see the building of this new power station being of any benefit to me yet I will have to endure the noise and great inconvenience so anything that could lessen the impact would be very helpful.

An answer to this email would be appreciated - thanks

Mrs Margaret Treacy - telephone no [REDACTED]
