21st January 2019

DCRM Ref. No: HNP-HZSL-MGT-LET-10001

Dear Ms Sully

Thank you for taking the time on Friday 18th to discuss the Wylfa Newydd project and the DCO.

Following Hitachi's announcement on the 17th January 2019 to suspend its nuclear power station project in the UK ("Horizon Project") the company will be moving towards a suspended state organisation by the end of March 2019. Whilst reducing our presence Hitachi will keep the option to resume development at some point in the future.

With respect to the Development Consent Order (DCO) currently in progress Horizon will continue with the ongoing programme whilst it seeks opinion from Stakeholders and other interested parties on the best way forward. This will take place over the next few weeks.

For more information please contact Neil Burke or myself.

Yours sincerely

A large black rectangular box redacting the signature of Anthony Webb.

Anthony Webb
