1 Introduction

1.1 Status of this SoCG

- 1.1.1 This Statement of Common Ground (hereafter referred to as the ‘SoCG’ is being submitted to the Examining Authority as an agreed final version at Deadline 6, in accordance with the examination timetable.
- 1.1.2 This is a signed and jointly agreed statement between Horizon and BCUHB. It is an accurate reflection of agreed, disagreed and ongoing matters at Deadline 6.
- 1.1.3 It is noted that, due to the programme for drafting, other documents submitted at Deadlines 5 and 6 are not fully reflected in this final SoCG. Where documents have been updated for these deadlines (for example the Wylfa Newydd CoCP) this does not change the status of the matters subject to this SoCG.

1.2 Purpose of this document

- 1.2.1 This SoCG is a final agreed document that has been prepared by Horizon and BCUHB. It has been prepared in accordance with the guidance published by the Department of Communities and Local Government (hereafter referred to as ‘DCLG Guidance’)¹ and example SoCG documents provided on the Planning Inspectorate’s website².
- 1.2.2 The purpose of this SoCG is to set out agreed factual information about the application for development consent to be made by Horizon for the construction and operation of a new nuclear power station at the Wylfa Newydd Development Area (hereafter referred to as ‘WNDA’) together with on and off-site associated development (hereafter referred to as ‘the Wylfa Newydd DCO Project’).
- 1.2.3 Paragraph 58 of the DCLG Guidance states:

“A statement of common ground is a written statement prepared jointly by the applicant and another party or parties, setting out any matters on which they agree. As well as identifying matters which are not in real dispute, it is also useful if a statement identifies those areas where agreement has not been reached. The statement should include references to show where those matters are dealt with in the written representations or other documentary evidence”

¹ Planning Act 2008: Guidance for the examination of applications for development consent (March 2015) paragraphs 58 – 65
www.gov.uk/government/uploads/system/uploads/attachment_data/file/418015/examinations_guidance-final_for_publication.pdf

² <https://infrastructure.planninginspectorate.gov.uk/application-process/example-documents/>

- 1.2.4 The aim of this SoCG is to therefore provide a clear position of the state and extent of discussions and agreement between Horizon and PHW, at Deadline 6, on matters relating to the Wylfa Newydd Project.
- 1.2.5 This SoCG has evolved through a series of iterative drafts. These drafts have been informed by on-going meetings between Horizon and BCUHB (further details are provided in section 4.1 of this SoCG). The first draft of this SoCG was provided by Horizon on 27 October 2017, for input and comment by BCUHB.
- 1.2.6 This SoCG is submitted to the Examining Authority in relation to the application by Horizon under section 37 of the Planning Act 2008 (the Act) for an order granting development consent for the construction of the Wylfa Newydd DCO Project.

1.3 Description of Development

The Wylfa Newydd Project

- 1.3.1 The Wylfa Newydd Project includes:

The Enabling Works

- 1.3.2 The Enabling Works comprise the Site Preparation and Clearance Proposals (SPC Proposals) and the A5025 On-line Highway Improvements.
- 1.3.3 Horizon has submitted applications for planning permission for the Enabling Works under the Town and Country Planning Act 1990 to the Isle of Anglesey County Council (IACC) as local planning authority. The On-line Highway Improvements were granted planning permission on 13th July 2018 (ref: 27C106E/FR/ECON). The planning authority resolved to grant the SPC application subject to the signing of a legal agreement on the 5th September 2018. The Welsh Government wrote to the IACC on 13 December 2018 directing that the SPC application should be determined by the Welsh Ministers (referred to as a call-in). Horizon has now written to IACC and Welsh Government to confirm that it is withdrawing the SPC application and that all works included within the SPC application have also been applied for as part of the DCO application.
- 1.3.4 In order to maintain flexibility in the consenting process for the Wylfa Newydd DCO Project, the SPC Proposals have also been included in the DCO application. The A5025 On-line Highway Improvements are not part of the DCO application.

The Wylfa Newydd DCO Project

- 1.3.5 The Wylfa Newydd DCO Project comprises those parts of the Wylfa Newydd Project which are to be consented by a DCO, namely:

The Nationally Significant Infrastructure Project (NSIP)

- **Power Station:** the proposed new nuclear power station, including two UK Advanced Boiling Water Reactors, the Cooling Water System, supporting facilities, buildings, plant and structures, radioactive waste and spent fuel storage buildings and the Grid Connection;
- **Other on-site development:** including landscape works and planting, drainage, surface water management systems, public access works including temporary and permanent closures and diversions of public rights of way, new Power Station Access Road and internal site roads, car parking, construction compounds and temporary parking areas, laydown areas, working areas and temporary works and structures, temporary construction viewing area, diversion of utilities, perimeter and construction fencing, and electricity connections;
- **Marine works comprising:**
 - Permanent Marine Works: the Cooling Water System, the Marine Off-loading Facility, breakwater structures, shore protection works, surface water drainage outfalls, waste water effluent outfall (and associated drainage of surface water and waste water effluent to the sea), fish recovery and return system, fish deterrent system, navigation aids and Dredging;
 - Temporary Marine Works: temporary cofferdams, a temporary access ramp, temporary navigation aids, temporary outfalls and a temporary barge berth;
- **Off-site Power Station Facilities:** comprising the Alternative Emergency Control Centre (AECC), Environmental Survey Laboratory (ESL) and a Mobile Emergency Equipment Garage (MEEG); and

Associated Development

- the Site Campus within the Wylfa Newydd Development Area;
- temporary Park and Ride facility at Dalar Hir for construction workers (Park and Ride);
- temporary Logistics Centre at Parc Cybi (Logistics Centre);
- the A5025 Off-line Highway Improvements;
- wetland habitat creation and enhancement works as compensation for any potential impacts on the Tre'r Gof Site of Special Scientific Interest (SSSI) at the following sites:
 - Tŷ Du;
 - Cors Gwawr;
 - Cae Canol-dydd

- 1.3.6 The Power Station will be operational for approximately 60 years after which it will be decommissioned. The buildings will be removed from the site and all spent fuel and radioactive waste managed. The end state of the site will be agreed with the regulators.

Licensable Marine Activities

- 1.3.7 The Licensable Marine Activities comprise the Marine Works and the Deep Disposal (i.e. the disposal of material from dredging at the Disposal Site at Holyhead North). The Licensable Marine Activities will be consented under a Marine Licence; however the Marine Works would also be consented under the DCO.
- 1.3.8 A more detailed description of development is contained at Chapter 4 of the Planning Statement (APP-406).

2 Consultation with BCUHB

- 2.1.1 Horizon has engaged with BCUHB throughout the pre-application period and following the submission of the DCO application.
- 2.1.2 The preparation of this final SoCG has been informed by a programme of discussions between Horizon and BCUHB, including the provision of comments through formal and informal consultation, and feedback provided in meetings.

Meeting schedule

- 2.1.3 Horizon met with BCUHB to discuss and document common ground on the following dates.

Table 2-1 BCUHB meeting schedule: SoCG

Meeting Date	Attendees	Purpose of Meeting
3 July 2017	Horizon BCUHB	Health Impact Assessment (HIA) Steering Group and approach to SoCG
22 December 2017	Horizon BCUHB	SoCG update
27 February 2018	Horizon / Atkins / Quod / NWP / PHW / BCUHB / NWFRS / WAST / WG / IACC / BCA	Safeguarding
1 March 2018	Horizon / Quod / Atkins / BCA / NWP / NWFRS / WAST / BCUHB / PHW	Labour churn
27 February 2018	Horizon / Atkins / Quod / NWP / PHW / BCUHB / NWFRS / WAST / WG / IACC / BCA	Safeguarding
1 March 2018	Horizon / Quod / Atkins / BCA / NWP / NWFRS / WAST / BCUHB / PHW	Labour churn
23 April 2018	Horizon / Quod / PHW / BCUHB / WAST	DCO application process briefing
21 August 2018	Horizon / BCA / BCUHB / Quod	SoCG update / health service proposals
1 October 2018	Horizon / BCA / BCUHB / Quod	SoCG update / BCUHB response to health service proposals*
5 October 2018	Horizon / BCUHB	Strategic relations between Horizon and BCUHB

Meeting Date	Attendees	Purpose of Meeting
9 October 2018	BCUHB / BCA	Discussion (telecom) regarding health service proposals
9 November 2018	BCUHB / WAST / Horizon / WG	SoCG update
4 January 2019	BCUHB / Canolfan Iechyd Amlwch / Horizon	Health services pre-Site Campus Medical Centre (SCMC)
15 January 2019	BCUHB / Horizon	Discussion on scale of planning obligations
29 January 2019	BCUHB / Horizon	Discussion on scale of planning obligations
8 February 2019	BCUHB / WAST / Horizon / WG	SoCG update

*Set out in the draft *Health Services for the Construction Workforce: Discussion Document* dated 20th August 2018. This was a draft discussion document setting out proposals for the health services for the construction workforce and did not form part of the DCO application submission. This document was tabled at the meeting between BCUHB and Horizon on 21 August and discussed further at the meeting on 1 October at which further queries were raised for clarification. It is being formalised as a scope of works for inclusion as a schedule in DCO s.106 agreement, to ensure it is committed in the DCO.

- 2.1.4 These discussions through the SoCG process followed a longstanding series of discussions between Horizon and BCUHB relating to the Health Impact Assessment (HIA) and proposals for health services for the workforce scoping. A list of these meetings is provided below:

Table 2-2 BCUHB meeting schedule: HIA and other

Meeting Date	Attendees	Purpose of Meeting
8 (number) meetings between April 2011 – October 2015	HIA Steering Group	Regular meetings to guide the HIA as it progresses.
August 2011	Sub group of the HIA Steering Group	Application of the IACC screening tool to the Project as part of the scoping process. Further details are in the HIA Scoping Report.
October 2015	Horizon BCUHB	Expectations and concerns regarding the Project with regard to the public health agenda and BCUHB priorities.
February 2016	HIA Steering Group	Various.
June 2016	HIA Steering Group	Various.
July 2016	BCUHB and partners	Health services for the workforce.
October 2016	BCUHB and partners	Health services for the workforce.
December 2016	BCUHB	Health services for the workforce.
January to May 2017	IACC / WG / BCUHB / PHW / WAST / NWP / NWFRS	Identification of issues arising from PAC2 and Level 4 meetings and progress towards Statements of Common Ground.
March to May 2017	IACC / BCUHB / WAST / PHW / NWFRS / NWP / WG	Issues regarding safeguarding and discussion on how to move forward.
March 2017	BCUHB and partners	Timeframe and process to reach agreement regarding health services.
March 2017	HIA Steering Group	Progress update on Wylfa Newydd HIA and role of the Steering Group.

Meeting Date	Attendees	Purpose of Meeting
June 2017	IACC and BCUHB	Potential effects and mitigation regarding labour churn in the health sector and for social care with particular attention to bilingual (Welsh-English) staff.
July 2017	BCUHB and PHW	The role for the HIA Steering Group with regard to the Project and the process and timetable for the HIA and the DCO submission
July 2017	IACC / BCUHB / WAST / PHW / NWFRS / NWP / Medrwn Môn	Mitigation measures with regard to the construction workforce, the planned activity of the Project concerning safety and security and the requirement to safeguard children and adults 'at risk' with care and support needs.
February 2018	Horizon / Atkins / Quod / NWP / PHW / BCUHB / NWFRS / WAST / WG / IACC / BCA	Safeguarding
March 2018	Horizon / Quod / Atkins / BCA / NWP / NWFRS / WAST / BCUHB / PHW	Labour churn meeting

Comments provided by BCUHB

2.1.5 Comments were provided by BCUHB at the following stages, as set out in the table below.

Table 2-3 Comments provided by BCUHB

Date	Consultation
27 October 2016	PAC 2 consultation
23 June 2017	PAC 3 consultation
8 August 2018	Relevant representations
19 October 2018	Comments on the fourth draft SoCG
12 and 13 February 2019	Comments on final draft SoCG

2.1.6 The comments made were taken into account in the development of final documents to support the DCO. These documents also served to develop, and inform on-going discussions associated with this SoCG. The PAC2 and PAC3 comments formed the basis for the topics included in the first draft of this SoCG, since when the topics have evolved in response to the progress of discussions.

3 Current Position

3.1 Current position with this SoCG

- 3.1.1 On the 21st August 2018, in a meeting with BCUHB, Horizon shared the Discussion Document entitled Health Services for the Construction Workforce (dated: 20th August 2018) with BCUHB. This was discussed at this meeting and at a meeting on the 1st October 2018. BCUHB provided written comments on the Discussion Document on 19th October 2018. BCUHB welcomed sight of the draft proposals in the Health Services for the Construction Workforce: Discussion Document (20th August 2018) and the additional information regarding health services provision which this document provides. BCUHB has presented a number of queries in discussions prior to this final SoCG and has welcomed the opportunity to discuss the proposals.
- 3.1.2 Horizon has engaged proactively with BCUHB to develop this final SoCG. Details of this engagement are set out in tables 2.1 to 2.3. This SoCG has been developed as an iterative draft by Horizon to reflect its understanding of BCUHB's position (at 4th December 2018) expressed verbally at meetings (most recently on the 15th November 2018), or through correspondence (including PAC2, PAC 3 and Relevant Representations), and is to its knowledge an accurate reflection of agreed, disagreed and ongoing matters.
- 3.1.3 BCUHB provided further feedback on the SoCG on 25th November 2018 following the meeting on the 15th November. Members of the BCUHB team attended the meeting with PHW on 20th November 2018 and provided further comments.
- 3.1.4 A final meeting was held on 8th February 2019 prior to the submission of this final agreed SoCG with further dialogue on the week commencing 11th February to confirm agreement of the final draft.

3.2 Position of Horizon Nuclear Power and BCUHB

- 3.2.1 The following schedule at table 3-1 sets out matters by topic area and an indication of whether the issue is agreed (green) or not agreed (red). This SoCG is a final version and there are no ongoing issues.
- 3.2.2 BCUHB does not wish to raise objections in relation to any other areas of the Project save in respect of any areas of the Project which could not be foreseen by Horizon and/or BCUHB as at the date hereof as a result of changes to the Project or otherwise.

Table 3-1 Statement of Common Ground between the BCUHB and Horizon

(Please note that SoCG IDs are not in sequential order as this table has been an ongoing document with removals and additions. The original IDs are retained for consistency with previous drafts.)

HIA Participation and Scope

Topic	Issue	Sub-issue	SoCG ID	Document Reference / Signpost / Route-map	BCUHB Position	Horizon Position	RAG	Action required to inform discussion on the issue
HIA participation and scope	HIA Steering group participation	N/a	BCUHB 001	Health Impact Assessment Report (APP-429). Paragraphs: A.1.22 - 1.25, A5.6, - 5.7, J1.3, Appendices L, N and O.	An independently chaired HIA Steering Group, convened in 2011, has helped Horizon develop the methodology used to complete the HIA Report. The HIA Steering Group, comprised of BCUHB, PHW, Welsh Government, Wales Health Impact Assessment Support Unit (WHIASU), IAAC, Project Liaison Group and Horizon, has given advice on the assessment methodology and provided feedback on drafts of the reports. It is agreed between both parties that the level of participation by the HIA Steering Group in the development of the HIA has been satisfactory, following the opportunity to comment on the September 2017 draft of the draft HIA and final HIA Steering Group meeting prior to submission on 24.1.18 (the 14 th HIA Steering Group meeting). BCUHB would wish to record that the HIA Steering Group was not given the opportunity to comment on the final HIA before its publication.		Agreed	No further action
	HIA scoping	N/a	BCUHB 002	Health Impact Assessment Report (APP-429) (Chapter A.5)	BCUHB's position is that the scope of the HIA does not fully reflect the change in workforce accommodation strategy since PAC2 (i.e. to include the Site Campus).	The HIA Report covers everything in the HIA Scoping Report, which represents an appropriate and comprehensive scope covering the entire Wylfa Newydd DCO Project. Horizon's position is that the scope of the HIA, was subsequently updated, and the HIA assesses the final Workforce Accommodation Strategy and specifically the inclusion of the Site Campus.	Not agreed	This matter is not agreed. However, both parties agree that there is a need to focus on mitigation going forward (as reflected in line below)
			BCUHB 002a	Health Impact Assessment Report (APP-429) (Chapter A.5)	It is agreed that constructive discussion regarding mitigation to ensure that there are no likely significant adverse impacts from the Site Campus has taken place and is reflected in this SoCG. This discussion includes the health services that will be provided to the construction workforce and it includes broader issues around the wider determinants of health.		Agreed	No further action

Demand for medical and healthcare services during construction

Topic	Issue	Sub issue	SoCG Index number	Document Reference /Signpost/Routemap	Agreed BCUHB and Horizon position	RAG	Action required to inform discussion on the issue
Demand for medical and healthcare services during construction	Population change during construction	Worker numbers	BCUHB 003	Workforce Accommodation Strategy (WAS) (APP-412). Chapter 3. Health Impact Assessment Report (APP-429) (Paragraphs A3.44-3.45)	The worker accommodation strategy is based on 9,000 construction workers at peak (incorporating an element of contingency to Horizon's central estimate of 8,500). The proposals to house these workers comprise: <ul style="list-style-type: none"> Provision of up to 4,000 bed spaces on the Site Campus (purpose built Temporary Workers Accommodation on-site); A central case that relies on use of 3,000 bed spaces in existing accommodation across Anglesey and parts of the mainland 2,000 workers recruited from existing residents recruited locally who will not therefore need temporary accommodation. Both parties agree that it is appropriate that the HIA adopts the peak of 9,000 workers for assessment purposes.	Agreed	No further action
		Construction Programme	BCUHB 004	Environmental Statement (APP-088). Volume C -	BCUHB requests confirmation of when the on-site service will open and similarly when this will close at the end of the construction project.		Agreed

Topic	Issue	Sub issue	SoCG Index number	Document Reference /Signpost/Routemap	Agreed BCUHB and Horizon position	RAG	Action required to inform discussion on the issue
Workforce demands for health services	Assumptions on nationality, gender and age	and worker profile		Project-wide effects C1 - Socio-economics). 'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO document, though relevant extracts are appended to draft s106 schedule 8). Phasing Strategy (REP4-014)	Horizon would operate two on-site healthcare facilities: <ul style="list-style-type: none"> a Construction Site Clinic (CSC) (a facility within the construction security fence on the Power Station Site; and a Site Campus Medical Centre (SCMC) (a medical centre on the Site Campus. Commitments to these facilities are secured in the Wylfa Newydd Code of Construction Practice (REP2-031 final version – no PINS number yet). The CSC will operate from the start of the Construction Period (start of Quarter 1 post implementation of the Wylfa Newydd DCO Project, until the end of the Construction Period). Horizon will operate the SCMC from Phase 1 of the Site Campus. Commitment is secured in the Phasing Strategy (REP4-014). BCUHB requests clarification as to which years relate to the anticipated worker accommodation numbers shown in Table 2-3 of the 'Health Services for the Construction Workforce: Discussion Document (20.8.18)' Horizon states that Year 1 and Year 2 relate to the Site Preparation and Clearance works. Horizon notes that this is based upon the indicative construction workforce accommodation profile that is provided in Fig C1-6 of the Environmental Statement (APP-088).		
			BCUHB 005	Health Impact Assessment Report (APP-429) (Paragraph 3.55) Code of Construction Practice (REP2-031) (note CoCP was updated for Deadline 5) Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6)	BCUHB is satisfied that non-home based workers will be temporary residents in the accommodation and most will return to their usual place of residence after the on duty period. The HIA Report (APP-429) (section A3) sets out the assumptions about the workforce. The draft DCO s.106 agreement [REP3-042] sets out how Horizon will provide monitoring in relation to socio-economic impacts across the Key Socio-Economic Study Area unless otherwise agreed by the Programme Board. A Health and Wellbeing Engagement Group is constituted in Schedule 8 of the draft DCO s106 agreement.	Agreed	No further action
		Workforce dependents	BCUHB 006	Environmental Statement chapter B2 (socio-economics) (APP-067). Health Impact Assessment Report (APP-429) Paragraph A.4.46 Mitigation Route Map Rev 2.0 (REP2-038)	BCUHB accepts the assumptions on breakdown of workers and dependents as set out in the worker profiles in section A.3 of the HIA Report (APP-429). Horizon states that the number of workers bringing families will be carefully monitored through collection of data as specified in the draft DCO s.106 agreement (Schedule 1). Horizon will gather aggregate and anonymous data on the number of partners and dependents moving to the area with Wylfa Newydd workers. This will help BCUHB identify any additional demand for healthcare services. The Workers Accommodation Management Service (WAMS) will provide a mechanism for gathering this information.	Agreed	No further action
		Indirect workforce	BCUHB 007	Workforce Accommodation Strategy (WAS) (APP-412) Environmental Statement Volume C Chapter 1	BCUHB accepts the estimates of indirect and induced workforce. Horizon states that applying a construction sector employment multiplier of 1.9 (Scottish Government, 2016) to calculate indirect and induced employment, it is estimated that a further 1,800 jobs, in addition to the 2,000 home based mentioned above would be created as a result of the direct employment opportunities. These would all be additional home based positions, i.e. would not result in any need for temporary accommodation.	Agreed	No further action
	Home based workforce	BCUHB 008	Health Impact Assessment Report (APP-429) Paragraph A.3.52	BCUHB and Horizon agree that, as existing residents, the home based component of the workforce (i.e. up to 2,000 of the temporary construction workforce and the indirect / induced jobs created) would not result in any additional demand on local health services.	Agreed	No further action	
	Non home based workforce,	BCUHB 009	Health Impact Assessment Report (APP-429) - Tables C-4 and C-5.	BCUHB and Horizon agree that the construction workforce could create additional demand on health service capacity on the Isle of Anglesey and the mainland and that appropriate measures have been agreed and will be put in place to mitigate any likely significant additional demand created by the Project. The Health	Agreed	No further action	

Topic	Issue	Sub issue	SoCG Index number	Document Reference /Signpost/Routemap	Agreed BCUHB and Horizon position	RAG	Action required to inform discussion on the issue														
		families and dependents		'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO document, though relevant extracts are appended to draft s106 schedule 8). Item 0112 of the Mitigation Route Map Rev 2.0 (REP2-038)	(Contingency) Fund, secured by s. 106 agreement) would cover unplanned demand up to the limit of the contingency fund.																
	Community need for health services		BCUHB 010	Health Impact Assessment Report (APP-429) Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6) Item 0112 of the Mitigation Route Map Rev 2.0 (REP2-038)	<p>BCUHB and Horizon agree that financial contributions (secured through the draft DCO s.106 agreement) associated with use of NHS services would manage any likely significant increased demand in health services due to the Project and the Health (Contingency) Fund, secured by draft DCO s. 106 agreement, would cover unplanned demand up to the limit of the contingency fund.</p> <p>The total, and component, payments for the draft DCO s.106 as agreed by BCUHB and Horizon are set out below:</p> <table border="0"> <tr> <td>Health (First NHS Workforce Use) Payment</td> <td>£1,216,163</td> </tr> <tr> <td>Health (Second NHS Workforce Use) Payment</td> <td>£4,041,579</td> </tr> <tr> <td>Health (NHS Dependants Use) Payment</td> <td>£722,770</td> </tr> <tr> <td>Health (Monitoring) Payment</td> <td>£270,000</td> </tr> <tr> <td>Health (Contingency) Fund</td> <td>£3,392,373</td> </tr> <tr> <td>Sub-total</td> <td>£4,385,143</td> </tr> <tr> <td>Total</td> <td>£9,642,885</td> </tr> </table> <p>These amounts and the formulae that generate them were discussed and considered at a meeting between BCUHB and Horizon on 8th February. Both the amounts and the formulae are subject to confirmation by the BCU HB executive team prior to inclusion in the final draft s106 agreement.</p>	Health (First NHS Workforce Use) Payment	£1,216,163	Health (Second NHS Workforce Use) Payment	£4,041,579	Health (NHS Dependants Use) Payment	£722,770	Health (Monitoring) Payment	£270,000	Health (Contingency) Fund	£3,392,373	Sub-total	£4,385,143	Total	£9,642,885	Agreed	BCUHB to confirm formal sign off of amounts and formulae by executive team (which is outstanding at the time of finalising this SoCG)
Health (First NHS Workforce Use) Payment	£1,216,163																				
Health (Second NHS Workforce Use) Payment	£4,041,579																				
Health (NHS Dependants Use) Payment	£722,770																				
Health (Monitoring) Payment	£270,000																				
Health (Contingency) Fund	£3,392,373																				
Sub-total	£4,385,143																				
Total	£9,642,885																				

Medical and healthcare provision / mitigation during construction

Topic	Issue	Sub issue	SoCG Index number	Document Reference / Signpost/Routemap	Agreed BCUHB and Horizon position	RAG	Action required to inform discussion on the issue										
Medical and healthcare provision / mitigation during construction	Provision of medical and healthcare facilities for the construction workforce	Process for agreeing health services	BCUHB 011	Health Impact Assessment Report (APP-429)	<p>This row condenses the items that, in the draft SoCG (REP2-059), were covered by BCUHB 011 to BCUHB 014 and BCUHB 017, BCUHB 019, BCUHB 030, BCUHB 031 and BCUHB 033. Those rows reflected a process as the SoCG was developed between the parties. In summary BCUHB and Horizon agree that:</p> <ul style="list-style-type: none"> the matters raised by BCUHB (through consultation, Relevant Representation, Written Representation etc) are being addressed to both party's satisfaction; a draft specification for health services has been prepared and it will be refined once a service provider is appointed; a work programme has been set out that gives both parties confidence that appropriate steps will be taken to establish the operational arrangements to deliver healthcare for the construction workforce across the whole Project; both parties commit to arrangements for health services that are robust; meet required professional, clinical and statutory requirements; both parties commit to arrangements for health services that will minimise unintended consequences for local NHS services through unanticipated demand; and that the parties have agreed financial contributions which have been reflected in the draft s106 to be agreed with IACC. 	Agreed	No further action										
		Specification for health services – PAC 3 comments	BCUHB 012	Item 0112 of the Mitigation Route Map Rev 2.0 (REP2-038)													
Specification for health services – relevant representations	BCUHB 013	Item 0103 of the Mitigation Route Map Rev 2.0 (REP2-038)															
Specification for health services – Health services for the construction workforce discussion document	BCUHB 014	Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6)															
	BCUHB 017	'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO submission document though relevant extracts are appended to draft s106 schedule 8).

					<ul style="list-style-type: none"> to monitor use of NHS services by construction workforce to compensate, according to agreed formulae, for use of NHS services by construction workforce. 		
		Workforce electing to use the NHS	BCUHB 034	<p>Mitigation Route Map Rev 2.0 Items 0097 and 0103 (REP2-038)</p> <p>Workforce Management Strategy (APP-413) (note WMS was updated for Deadline 5)</p> <p>Draft Development Consent Order (APP-029)</p>	<p>The Workforce Management Strategy (WMS) (APP-413) (updated at Deadline 5) directs all personnel (not just those residing on the Site Campus) to use the Site Campus Medical Centre in the first instance, before seeking to use community healthcare services. This is an integral component of Horizon's undertaking to reduce as far as reasonability practicable the potential for likely significant adverse impacts on local community health and welfare services and resources used by local residents.</p> <p>BCUHB and Horizon recognise, the WMS notwithstanding, that not all workers will access all health services on-site and that some will choose to access primary care services off-site and some may need to access community, mental health and hospital services provided by the NHS. All parties agree that it is beneficial to minimise these impacts, but recognise the need to mitigate based on a reasonable estimate of the actual demand and to monitor on an ongoing basis.</p> <p>BCUHB and Horizon have considered a number of care pathways and will develop, and agree further pathways, by the start of the Construction Period (see BCUHB 032 above) to provide clarity on who is responsible for the provision of safe and effective health services and how patients are transferred safely from one provider to another. The calculation of the "Health (First NHS Workforce Use) Payment" and the "Health (Second NHS Workforce Use) Payment" includes a cost element for NHS primary care mental health service usage by the construction workforce (which reflects expectations of low NHS usage due to the points discussed above).</p>	Agreed	No further action
	Laboratory services		BCUHB 035	<p>PHW D2 Written Rep, s6.2 (REP2-291)</p> <p>Health Impact Assessment Report (APP-429) (Paragraphs A3.46-3.51)</p> <p>Environmental Statement (APP-096). Appendix C1.2 (Technical appendix - Socioeconomics of the Environmental Statement).</p> <p>Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6)</p>	<p>Horizon's working assumption is that laboratory services will be outsourced to a private provider.</p> <p>It is agreed that any outsourcing of laboratory services would meet appropriate accreditation expectations. PHW has indicated that PHW laboratories have UKAS accreditation (Medical Laboratory accreditation (ISO 15189)) and that the laboratories in Rhyl have spare capacity.</p> <p>Horizon proposes to include these laboratories in any commercial tendering process for laboratory services. The DCO s106 agreement provides a commitment to a "Laboratory Services Proposal". The "Laboratory Services Proposal" means the proposal demonstrating how the Developer will meet and/or reimburse the costs of laboratory services for the non-home based members of the Workforce;</p>	Agreed	No further action
	Use of NHS	Referral	BCUHB 016	<p>Item 0112 of the Mitigation Route Map Rev 2.0 (REP2-038)</p> <p>'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO document, though relevant extracts are appended to draft s106 schedule 8).</p> <p>Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6)</p>	<p>BCUHB and Horizon have agreed referral rates which are reflected in the draft DCO s106 agreement.</p> <p>The actual referral rate to NHS services would be monitored with payments adjusted accordingly and secured via legal agreement through a s106 payment (the "Health (Second NHS Workforce Use) Payment").</p> <p>Horizon will provide funding, secured via legal agreement, to BCUHB to provide primary care to meet the needs of non-home-based construction workers prior to the opening of the Site Campus Medical Centre (the "Health (First NHS Workforce Use) Payment"). These are based upon BCUHB data and an agreed set of assumptions.</p>	Agreed	No further action

Topic	Issue	Sub issue	SoCG Index number	Document Reference / Signpost/Routemap	Agreed BCUHB and Horizon position	RAG	Action required to inform discussion on the issue
		Partners and dependents	BCUHB 018	Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6)	<p>BCUHB concerns regarding the impact and cost of family members' relocation to the area (as set out in previous relevant representations) have been addressed through the work to confirm the mitigating actions and the draft s106 agreement.</p> <p>Horizon notes that as a company, both it and its workforce pay taxes, from which the NHS is funded. Horizon therefore remains of the view that it should not meet the full costs of any gap in NHS budgets.</p> <p>Horizon will provide resources, secured via legal agreement, to BCUHB to meet the healthcare needs of partners and dependants of construction workers who move to the BCUHB area. This payment is based on a proportion of annual costs for this group during the Construction Period (the "Health (NHS Dependants Use) Payment").</p>	Agreed	No further action
		Emergency care	BCUHB 019	<p>Item 0104 of the Mitigation Route Map Rev 2.0 (REP2-038)</p> <p>Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6)</p> <p>'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO document, though relevant extracts are appended to draft s106 schedule 8).</p>	<p>It is agreed that emergency care will be provided by BCUHB by way of unscheduled GP and other primary care appointments, Out of Hours services, Emergency Department services and potentially major trauma services. A&E attendances and emergency admissions, elective admissions, elective day cases and outpatient appointments are included in the s106 "Health (First NHS Workforce Use) Payment" and the "Health (Second NHS Workforce Use) Payment".</p> <p>Emergency service planning is covered in a separate SoCG with WAST, to ensure that the Project's requirements are aligned with the expectations and capacity of the NHS ambulance service.</p>	Agreed	No further action
		Pharmacy	BCUHB 020	<p>Item 0612 and 0097 Mitigation Route Map Rev 2.0 (REP2-038)</p> <p>'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO document, though relevant extracts are appended to draft s106 schedule 8).</p>	<p>BCUHB states that prescriptions in Wales are free and this will drive an increase in demand for prescriptions from local NHS services unless there is an equal offer from the on-site services.</p> <p>Horizon states that its intention is to agree a contract with a local pharmacy to provide prescription services to the Site Campus Medical Centre. The prescriptions that will be written by the Site Campus Medical Centre clinicians will be private prescriptions. The intention is that Horizon will subsidise these private prescriptions. In this way all workers will receive prescriptions without paying a fee. This will remove the incentive of free prescriptions that might otherwise persuade some non-home-based workers to register with a Welsh GP.</p> <p>An estimated demand and a means of monitoring will be set up through the Health and Well-being Engagement Group (Item 0097 Mitigation Route Map Rev 2.0 (REP2-038) secured through the draft DCO s.106 agreement. The draft s106 agreement provides a commitment to a "Pharmacy Services Proposal". "Pharmacy Services Proposal" means the proposal demonstrating how the Developer will provide direct pharmacy prescription dispensation services for the non-homebased Workforce from Implementation for the duration of the Construction Period and/or fund or reimburse use of NHS pharmacies for prescription costs of non-home based members of the Workforce</p> <p>The calculation of the "Health (First NHS Workforce Use) Payment" and the "Health (Second NHS Workforce Use) Payment" include a cost element for NHS pharmacy usage by the construction workforce (which reflects expectations of low NHS usage due to the points discussed above).</p>	Agreed	No further action
		Dentistry	BCUHB 021	<p>'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO document, though relevant extracts are appended to draft s106 schedule 8).</p> <p>Draft DCO s106 Agreement (REP3-042) (note s106</p>	<p>Horizon and BCUHB agree that Horizon will reach an arrangement with a local dental practice to run clinics for the construction workforce for emergency dental treatment.</p> <p>The great majority of routine dental treatment for non-home-based construction workers would take place with the worker's dentist at their place of residence away from the Project. Any residual demand for routine local dental treatment by the construction workforce would be met within the agreement reached by Horizon with a local dental practice.</p> <p>The draft s106 agreement provides a commitment to a "Dental Services Proposal". "Dental Services Proposal" means the proposal demonstrating how the Developer will have adequate dentistry provision in place from time to time (including emergency dentistry care) for the non-homebased Workforce from</p>	Agreed	No further action

Topic	Issue	Sub issue	SoCG Index number	Document Reference / Signpost/Routemap	Agreed BCUHB and Horizon position	RAG	Action required to inform discussion on the issue
				being updated for Deadline 6)	Implementation for the duration of the Construction Period which will include: provision of private dentistry facilities; and/or funding or other operational agreements with local dentistry practices. The calculation of the "Health (First NHS Workforce Use) Payment" and the "Health (Second NHS Workforce Use) Payment" includes a cost element for NHS dental service usage by the construction workforce (which reflects expectations of low NHS usage due to the points discussed above).		
		Out of hours services	BCUHB 022	Item 0112 of the Mitigation Route Map Rev 2.0 (REP2-038) 'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO document, though relevant extracts are appended to draft s106 schedule 8).	Horizon and BCUHB agree that appropriate out of hours services would be provided as part of the on-site health care provision. Any additional impact on NHS services would be covered by the contribution for the workforce electing to use the NHS (i.e. within the "Health (First NHS Workforce Use) Payment" and the "Health (Second NHS Workforce Use) Payment").	Agreed	No further action
		Sexual health services	BCUHB 023	Item 0112 of the Mitigation Route Map Rev 2.0 (REP2-038) 'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO document, though relevant extracts are appended to draft s106 schedule 8).	Horizon and BCUHB agree that sexual health service is an anonymous service. Patients may not visit the SCMC with such issues. Alternatives include use of sexual health services near to their usual place of residence during periods of leave. The local BCUHB NHS sexual health service leads will be involved in the development of a service for workers which protects the staff and local population and addresses safeguarding issues. The calculation of the "Health (First NHS Workforce Use) Payment" and the "Health (Second NHS Workforce Use) Payment" include a cost element for NHS sexual health service usage by the construction workforce (which reflects expectations of low NHS usage due to the points discussed above). If there is greater use of NHS sexual health services by the construction workforce this will trigger payments from the draft DCO s.106 agreement health contingency fund which is provided to deal with unanticipated effects which are picked up through monitoring.	Agreed	No further action
		Monitoring	BCUHB 024	Health Impact Assessment Report (APP-429) Code of Construction Practice (REP2-031) (note CoCP was updated for Deadline 5) 'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO document, though relevant extracts are appended to draft s106 schedule 8). Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6)	BCUHB and Horizon agree on the need for mechanisms for adaptive monitoring. It is agreed that thresholds for remedial action and monitoring processes and data sources will be agreed post-DCO grant. The DCO s106 agreement "Health (Monitoring) Payment" includes a cost element to allow BCUHB to pay GPs to record whether new or emergency registrations are working at the Wylfa Newydd Project. It also includes a cost element for BCUHB to monitor the effects of the Wylfa Newydd Project on Local Health Services during the Construction Period and provide appropriate data to the Health and Wellbeing Engagement Group. BCUHB notes that the group tasked with monitoring should have an independent chair. Paragraph 3.2.15 and following of the Code of Construction Practice (REP2-031) sets out how Horizon will provide monitoring in relation to socio-economic impacts across the Key Socio-Economic Study Area. A Health and Wellbeing Engagement Group is constituted in Schedule 8 of the draft DCO s106 agreement. Horizon will establish an external stakeholder group (hereafter Health and Wellbeing Engagement Group) that will include members of the health and emergency services to monitor the implementation of the HIA mitigation strategy and provide advice on its delivery. When appropriate Horizon would facilitate bespoke analysis of routinely collected public health data (existing indicators), relevant to the Wylfa Newydd Project. The information would inform discussion by the Health and Well-being Monitoring Group. If appropriate the Group will discuss the need for additional mitigation or follow-up investigation. To facilitate this process, a set of key topics and indicators will be agreed. The topics will be expected to include the following: 1. Access to NHS services; 2. Respiratory health; 3. Accident hotspots; 4. Sleep disturbance;	Agreed	No further action

Topic	Issue	Sub issue	SoCG Index number	Document Reference / Signpost/Routemap	Agreed BCUHB and Horizon position	RAG	Action required to inform discussion on the issue
					5. Housing market pressures; 6. Recruitment rates from local communities; 7. Safeguarding [with regard to] vulnerable adults and children; and 8. Community lifestyles, behaviour, including community cohesion, and physical activity levels		

Other health impacts of issues arising from the construction phase

Staff displacement

Topic	Issue	Sub Issue	SoCG Index number	Document Reference/ Signpost/Routemap	Agreed BCUHB and Horizon position	RAG	Action required to inform discussion on the issue
Staff displacement	Potential migration of skilled medical staff		BCUHB 028	<p>ES Socio Economic chapter (APP-088)</p> <p>Jobs and Skill Strategy (APP-411)</p> <p>Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6)</p>	<p>The concerns regarding challenges in recruiting skilled healthcare professionals – whether medical, nursing, or other professions – have been well noted. There are currently shortfalls in certain key staff and any competing recruitment process may cause difficulty. It is agreed that there is potential for a legacy benefit.</p> <p>BCUHB would also welcome further discussion of any potential for a partnership approach to workforce and recruitment strategies. BCUHB are concerned regarding the potential migration of healthcare support staff who may be attracted into other roles within the Wylfa Newydd DCO Project and will respond in more detail as discussions progress.</p> <p>Horizon and BCUHB agree that some people may choose to move from other sectors to work on the Wylfa Newydd DCO Project. Horizon intends to support backfilling of any vacancies through the Employment and Skills Service.</p> <p>Horizon recognises that the job opportunities on the Isle of Anglesey can pose challenges for the public sector. Horizon recognises also that IACC, BCUHB, WAS, NWP and NWFRS have the detailed knowledge and professional skills to forecast and prepare Workforce Strategies for each of their organisations respectively.</p> <p>To that end a commitment has been recorded in the Mitigation Route Map (Item 0098, APP-422 secured through the DCO s.106) for support through sharing of workforce information, assisting in carrying out any required monitoring and the provision of an appropriate financial contribution and/or support to the IACC and BCUHB for officer time within those organisations.</p> <p>A financial contribution, via the Skills Fund, would be available to enable IACC and BCUHB to develop their workforce strategies (secured through the DCO s.106).</p>	Agreed	No Further Action

Cumulative impacts

Topic	Issue	Sub Issue	SoCG Index number	Document Reference/ Signpost/Routemap	Agreed BCUHB and Horizon position	RAG	Action required to inform discussion on the issue
Cumulative impacts	National Grid North Wales Connection Project		BCUHB 029	<p>Environmental Statement Volume I Chapter 5.</p> <p>Health Impact Assessment Report (APP-429)</p>	<p>The cumulative effects of the Project together with the proposed North Wales Connection Project have been assessed and are reported in Volume I Chapter 5 of the Environmental Statement.</p> <p>The HIA (APP-429) also considers cumulative effects in a volume I. The HIA notes in table I-5 that: A collective construction workforce that does not usually reside in north Wales would put pressure on already stretched local healthcare services. The Wylfa Newydd DCO Project is mitigating its own effect, however, the benefits of such investment may be undermined (to the detriment of local communities and Wylfa Newydd DCO Project workers) if other projects do not take similar responsibility.</p> <p>It is agreed that BCUHB will respond to Horizon and to other relevant projects regarding any potential cumulative impact post-DCO.</p>	Agreed	No further action

Matters over which BCUHB maintains a watching brief

Topic	Issue	Sub-issue	SoCG ID	Document Reference/Signpost/Route-map	Agreed BCUHB and Horizon position	RAG	Action
	Health surveillance		BCUHB 015	Mitigation Route Map Item 0103 (APP-422) secured through S106, Draft Heads of Terms for Planning Obligations 'Health Services for the Construction Workforce: Discussion Document (20.8.18)' (not a DCO submission document)	BCUHB and Horizon agree that health surveillance will be provided on-site at the WNDA. Discussions have taken place between Horizon and BCUHB and also with Public Health Wales (PHW) (see PHW SoCG) regarding the use of laboratory testing services. BCUHB has liaised with PHW on these discussions. Horizon has reached agreement on this point with PHW. Health surveillance would be conducted across the workforce. This would include employees who are identified as requiring regular health checks as well as workers who are, or may be, exposed to hazardous substances or activities that may cause them harm. This would enable Horizon to check for early signs of work-related ill-health. Records would be maintained so as to enable statistical information to be supplied from the surveillance. This matter is being addressed with PHW. Horizon would put arrangements in place to ensure there is timely reporting of notifiable infections in line with legislation. Horizon will follow processes required by current law regarding the transfer of surveillance information into PHW's surveillance and case management systems. Further information is available in the PHW SoCG item PHW 013.	Agreed	No further action between BCUHB and Horizon
	Air Quality		BCUHB 025	Health Impact Assessment Report (APP-429) Volumes B-H in the Environmental Statement (APP-070, APP-091, APP-124, APP-140, APP-243, APP-270, APP-308, APP-359) Wylfa Newydd Code of Construction Practice (REP2-031) (note CoCP was updated for Deadline 5) Main Power Station Site sub-Code of Construction Practice (REP2-032) Draft DCO s106 Agreement (REP3-042) (note s106 being updated for Deadline 6)	BCUHB asks how the developer will ensure that there is no deterioration in local air quality (either in the short or long term) and how this will be measured, validated and evaluated (relevant representations). BCUHB accepts the position stated by Horizon in relation to air quality. BCUHB is aware that colleagues in Public Health Wales are in discussion on this topic via their own Statement of Common Ground and so has liaised with PHW to ensure duplication is avoided. The Wylfa Newydd Project Health Impact Assessment Report (HIA) (APP-429) considers air quality in relation to: 'Emissions from vehicles transporting materials and people on the local road network during construction' (see HIA section C.2): 'Vehicle and machinery emissions on the Wylfa Newydd Development Area during construction (see HIA section D.2) and 'Dust generated by construction activities, excavation and earth movements during construction' (see HIA section D.2). The predicted changes are predominantly negligible or small, within UK Air Quality Objectives and as low as reasonably practicable. This conclusion takes account of further mitigation commitments by Horizon since the DCO submission in relation to the use of newer, lower emitting construction plant, machinery and marine vessels (which further reduces the concentrations of nitrogen dioxide, which was an area of concern in the HIA). Details of the air quality changes (before the application of the additional mitigation described above) are set out in the Environmental Statement chapter D5 (air quality (APP-124)). The further commitments on mitigation and adaptive air quality monitoring (including measurement, validation and evaluation, as well as triggers and actions) have been recorded through the Statement of Common Ground process with the Isle of Anglesey County Council and will be included in the Main Power Station Site sub-Code of Construction Practice (REP2-032). A Health and Wellbeing Engagement Group is constituted in Schedule 8 of the draft DCO s106 agreement. A set of key topics and indicators will be agreed and are expected to include respiratory health.	Agreed	No further action between BCUHB and Horizon
	Transport		BCUHB 026	Transport Assessment (APP-101). Phasing Strategy (REP4-014)	BCUHB has expressed concerns about a number of impacts the development will have on the transport network, including delays to emergency and non-emergency ambulance services responses, potential increase in road traffic accidents and delays for patients accessing routine appointments to primary, community and hospital base services. The Wylfa Newydd Project includes a series of embedded mitigation measures to address potential congestion. These are set out in the Transport Assessment (APP-068, APP-089, APP-107) and secured through the Phasing Strategy (REP4-014). The conclusions of the Transport Assessment are that there is no additional mitigation required in addition to the embedded mitigation. This would reduce the potential for road congestion that could affect health trip journey times (e.g. to a hospital) during construction. This would reduce the potential for road congestion that could affect emergency response times during construction (in addition to the priority given by other traffic to blue-light journeys).	Agreed	No further action between BCUHB and Horizon
