To whom it may concern

This email with info is the result over the past two or three years

Unable to sleep when working nights due to machinery when drilling the land

No exit or entrance from our own property nearly every day due to them blocking our entrance with their equipment or deliveries. The least they could have done is warn us before hand so that we could have at least parked our cars outside the gate. Getting to appointments late as unable to get out due to Horizon deliveries. The wheelie bins couldn't be emptied and the postman couldn't deliver.

When the first plans were drawn up, we did not have an entrance or exit so that meant we would never be able to leave our property, we did ask if they were going to provide us with a helicopter and landing pad and we weren't joking. Running parallel to our garden is the entrance and drive down to the water treatment works which requires 24hr access. When we asked about this, they were not even aware that there was a water plant there. Glad to see that they have thoroughly checked the layout at Llanfaethlu before starting on the plans for such a large project!!!

The attitude by Horizon and it's cronies appeared to be 'we can

do what the hell we want, so tough luck'

Over the years we have spoken to their Land Agents and solicitors. They promise to help us but never do and we are never able to speak to the same person twice so we keep having to repeat the whole story each time. We now suffer from Horizon fatigue.

Unfortunately our gate is right next to the entrance to a field purchased by Horizon, right next to the gate where Horizon have been drilling

Comments about the state of the road in front of the house, our gateway was almost a swamp with them driving their vehicles to and fro

Little people are just collateral damage to them.

They asked us if we would sell our entrance and access!

Complete madness!!!

We now live on a little island surrounded by land purchased by horizon, with threats of compulsory purchase

My friend ■■■ was very worried about Horizon plans, he kept coming to see me when he received communication. When asked what they were doing to him their attitude was "What's wrong with him we offered to build him a bridge" ■■■ has since sadly passed away, the worry and Horizon attitude did not help!!!

As a family we were 'pro' Wylfa B so just imagine how we

would have been treated if we were anti. They did say they wanted to get us back on side but have done nothing to alter our feelings.

Yours

Steve, Gwyneth & Mark
