**Date:** 12 March 2019 15:03:25

---

It has been brought to my attention that the DCO submitted by Horizon includes a Statement of Common Ground between Horizon and the National Grid, document referenced above. This refers to a 400kv overhead line.

The North Wales Connection project has been cancelled by the National Grid, confirmed by the Planning Inspectorate on 20/02/2019. Some aspects of the above document are no longer valid, for example: section 1.2.3. 'National Grid is promoting a second 400kv connection between the Wylfa and Pentir substations'..... There are other references. It would be inappropriate for any development consent order to include specific reference to overhead lines. This document requires revising to reflect the cancellation of the connection project.

Horizon and NG need to update these documents and any others, to expunge all references to overhead lines before the DCO is determined.

Yours faithfully  
Mr W G Roberts
