**Subject:** Wylfa Newydd Project. Deadline 3 submission: Horizon's response to my submission.

FOA: Kay Sully, Case Manager.

Dear Madam,

I have read the response by Horizon Nuclear. It seems to me that all they have done is to quote for my response (and others too!) Government Papers EN-1 and EN-6. I have read fully both of these documents, They make the case for a mix of electricity generating options for which I totally agree. Horizon have completely misunderstood the purpose of my submission which was to implore the use of INDIRECT COOLING OPTIONS to save the unnecessary deaths of Thousands of Fish! (EN-1 and EN-6 avoid this subject also and I am writing to DECC about this separately). What, please, can I do about Horizon's unsatisfactory response? the compliments of the season to you.

Thank you,

Michael Cominetti.
