## Section 2 - Your *Replasenkaidon*

Here you should summarise the aspects of the application you agree and/ or disagree with and say why. Outline what information, local knowledge or evidence you have which supports this. Please aim to limit this section to no more than 500 words (please use extra paper if needed).

- 1. You have not addressed the implications of the Mikk Study. This showed a 60% increase in solid cancers and a 117% increase in leukaemia among young children living near all 16 large German nuclear power stations. You have not said how you would attempt to mitigate this, therefore, you must be asking for permission to create all these extra cancers.
- 2. The increase of cancer causing emissions will also affect wildlife both on land and in the sea.
- 3. The greenhouse gas emissions from mining uranium, careing for the waste products & demolishing the power station are not outweighed by the energy produced. Our attempts therefore to mitigate climate change are considerably reduced. See the Pete Roche report.
- 4. Sea level rise is impossible to predict over the length of time it will take to build, operate and dismantle Sizwell C.
- 5. Risk of salt water ingress has not been fully addressed or acknowledge during the consultation period.
- 6. Accidents will happen & nuclear accidents could lay waste to large areas of land, making them unsuitable for crops or animal & humans for thousands of years.
- 7. Nuclear Power stations are terrorist attractions which was admitted by the nuclear industry after 9/11.
- 8. There is now no need for nuclear power. Pollution free renewable energy is now available, and is much cheaper.
- 9. Nuclear power does not 'cost in' any more, the economic case is simply not there now.
- 10. when the entire nuclear cycle is considered, from uranium mining to looking after the waste, it is clear that nuclear is not low carbon. That was just a myth, like electricity will be too cheap to meter. Both put forward by the nuclear industry.
- 11. ETHICS. In view of all the above it is not morally responsible to build Sizewell C.

Please check that you have completed all relevant sections, otherwise you may not be able to take part in the later stages of the Examination.

The Planning Act 2008 process is primarily a written Examiniation process and if you are registered as an Interested Party you will have an opportunity, later in the Examination process, to provide a more detailed Written Representation.

You cannot reserve a right to make a Representation later without providing a summary of the points you intend to submit at this stage.

Your Representation
I should take the form
I of a summary of what
I you agree with and/ or
I disagree within the
I application, and any
I impacts you think it
I would have.

Please note that your
Representation must
not include material
that is:

- vexatious or frivalous;
- about
  compensation for
  Compulsory
  Acquisition of land
  or of any interest
  in or right over
  land; or
  about the merits of
  policy set out in a
  National Policy
  Statement.

The information you include in the Representation section of this form will be used by the Examining Authority to carry out its Initial Assessment of Principle Issues and to decide the best way to examine the application.
