

Appendix A: Part 3: Natural England response to consultation

The following response was received by SZC Co. from the Natural England Lead Advisor in response to an offer to agree viewpoints:

Hi

We've run the agenda past [REDACTED] as our landscape specialist and his advice is that we'd normally defer to East Suffolk Council and/or the AONB when it comes to signing off on viewpoints given their detailed knowledge of the site and how the landscape is used by the public (especially given that we couldn't do a site visit under current circumstances). I've checked with the council this morning and they're happy for us to apply this principle on this issue so we'll defer to them and won't need to attend the call at 11am.

Kind regards,

[REDACTED]
