1 INTRODUCTION

- 1.1.1 This document has been produced in response to the Examining Authority's request [PD-005] for the provision of a 'signposting' document to facilitate interested parties' navigation of the development consent order (DCO) application documentation relating to the Sizewell C Project ('the proposed development').
- 1.1.2 The purpose of this document is to support or enhance interested parties' understanding of the nature of the proposed development for which SZC Co. seeks development consent, and of the parameters within which, if development consent were granted, the proposed development could be brought forward.
- 1.1.3 In particular, this document seeks to highlight the relationships between the draft DCO (Book 3.1, [APP-059]) and the Environmental Statement (ES) (Book 6, [APP-159 – APP-581]) and Environmental Statement Addendum (Doc Ref. 6.14) documents. However, it does not change or add to the content of those documents or the relationships between them.
- 1.1.4 Section 2 of this document sets out a signposting table with reference to where Works included within the draft DCO have been described and assessed within the Environmental Statement and Environmental Statement Addendum, and where controls regulating the parameters of these Works are established.
