Dear SZC Case Team

I am writing on behalf of Suffolk Coastal Friends of the Earth, of which I am the Coordinator. Our ID is 20025904.

With reference to the Rule 6 letter, we see that there is a list of organizations and individuals who are invited to find Common Ground with the applicant. Although all the other local campaign groups have been included in the list, we are not. We wonder therefore whether there is some reason for this, or whether we have simply been forgotten.

In fact we would very much welcome dialogue with EDF with the purpose of finding areas of common ground and making a statement to that effect. We would like to be included in the list therefore. Can you let me know, please, if this is a possible?

With thanks  
Yours sincerely  
Rachel Fulcher
