---

Dear Sir/Madam,

I have corresponded previously about my wish to participate in the Sizewell C plan examination. I also want to speak at the Preliminary Meeting, rather than just the examination, I don't have a SZC form, but respond to agenda items as follows;

Item 2. because I do not know what details will be missed in Item 4, I may want to speak here.

Item 4. This list only includes things submitted by EDF by the end of 30 September. The 14 changes issued in the middle of October, such as building another jetty and running night trains, are not included so there has been no chance to comment on them. The Planning Inspectorate has not announced whether or not they are accepting EDF's changes yet, so we are in the dark about this.

Item 5. The changes are 'material' and should not be accepted by PINs until a public consultation has been carried out. Opinions are required about whether or not PINs should accept the changes.

Item 6. Directly after 23 April Preliminary Meeting the 6 month examination will begin. This means it will be mainly virtual, and up until at least 21 June we will still be under Covid-19 restrictions. After that people will want to go out and about, and on holiday. Therefore it would be better to delay the Examination until the autumn or even next year when the whole examination can take place face to face, and locally.

Trevor Beebee
