Subject: Anthony Middleditch - Comments on Preliminary Meeting
Date: 06 April 2021 14:47:08

I was very interested to observe the Preliminary Meeting but unfortunately missed some of the proceedings due to computer connection problems. As a result I do not feel confident in participating during the Examination Stage and would hope that these sessions could be delayed until face to face meetings are possible.

I was appalled by the attitude of the Applicant's representative when he claimed that as the project was so large the concerns of those affected were of minor consequence. My property lies within 3 metres of that section of the B1122 which will be subject to extra HGV traffic during the entire construction phase. This will lead to unacceptable levels of noise, vibration and other environmental factors. It appears that EDF have little regard for the human rights of those of us whose lives will be made a misery should the project go ahead.

Anthony Middleditch
