

Leiston Town Council would like the inspectors to see and take note of the following areas in particular:

- Leiston Town Centre
- Lovers Lane Junction at Crown Farm
- Lovers Lane Household Waste site
- Lovers Lane Scottish Power Renewables activity
- Lovers lane Cycle Route
- Lovers Lane Halfway Cottages
- All affected footpaths and rights of way.

On the visit to Hinkley we would like the Insoectors to see the scale and size of the site, maybe from a High vantage point or via a drone.

We would also like them to see the spoil heaps, the arrangements made for badgers and bats, the light pollution at night particularly in surrounding villages such as Sogursey. We would also like them to make comparative note of the distance between Bridgewater and the HPC site and Leiston and the Sizewell site.
