

APPENDIX F

"Rail is the only option"

"Heritage Coast will become 'the Industrial Coast'!"

"Will tractors be banned on A12?"

"...simply recreating 'Basildon' in Suffolk"

"The A12 does not and will not have the capacity to carry this volume of traffic even with the proposed changes in road flow..."

"A number of signed footpaths cross the A12 - consideration and help for walkers should be given..."

"Option Z? No thanks. We do not want good farm land taken."

"I have two hearing aids and I have to be careful crossing roads..."

"It will probably have a detrimental effect on visitors to Minsmere"

"pluses and minuses regarding jobs..."

"Co2 emissions would be high, and Govt has signed a declaration to REDUCE them!?"

"Use rail and road to south if need, and avoid Saxmundham bypass..."

"Difficulty accessing and leaving A12..."

The pressure on the A12 will be phenomenal. Address the noisy road surface laid about 5 years ago between the Cartons.

"The Z option link road is only required for the construction of the power station. It is not required by the inhabitants and will be left as a 'white elephant' with loss of more agricultural land"

"Wildlife will be impacted by increase in noise and human activity....."

"Tree planting ASAP to reduce noise and pollution!"

"Why ruin more country side food production land by going cross-country..."

"Put back dual rail track (cheaper than new road)"

"A12 not fit for purpose as only main coastal route for holiday makers..."

"Do not want Sizewell C at all"

"Something to deal with the considerable amount of light pollution is required (negative for both people and wildlife)..."

"The proposal to store radio active waste on Sizewell C site is total madness..."

"Tranquillity and nature will be severely changed..."

"Consider building temporary Pontoon piers for delivery by sea system..."

"The proposal to store radio active waste on Sizewell C is total madness..."

"It will ruin our parish...hardest hit will be tourism"

"Two track rail system would provide legacy"

"This area of KcC is beautiful and peaceful and must not become ruined forever..."

"Its disgusting to build new roads when there are rail and sea options available..."

"More traffic, noise, pollution!"

"What about all the other large infrastructure projects, eg. large scale house building, Scottish Power wind farm, Friston sub station, etc, etc."

"If all Sea Options have been dismissed due to impact on marine life, then equal (water?) concern should be given to both road/rail impacts on human communities..."

"The mental health issues need to be considered as well as the physical health issues arising from pollution..."

"...long lasting damage to wildlife which is never 'repaired'."

"The A12 from Ipswich is NOT suitable, even with the 'improvements'..."

"More housebuilding is promised, more construction, adding to Sizewell traffic, all Chaos! Vandalism of valuable agricultural land needed for food production."

"The noise, dust, particle & light pollution of the construction phase, even with proposed rail extension, is unacceptable..."

"Why not use pontoon/cranes off-shore as they do in Asia?"

"Who would want to spend their holidays here?"

"Current Road system is already failing..."

"...this is a charming & peaceful English village, we will desperately need impact support..."

"The whole area of natural habitat will have a good chance of being destroyed as well as big areas of productive agricultural land..."
