Subject: Point of clarification from I Galloway 20025801
Date: 13 May 2021 20:04:21

Dear Sir or Madam,

Apologies for seeking your clarification, but I would be very grateful if you could confirm whether or not the current dDCO is being examined based on (amongst many, many other matters) the Assessment of Sustainability published in October 2010?

Moreover, if it is the case, are PINS obliged to disregard all later statements regarding issues of 'sustainability' - for example those made regarding "...A New National Policy Statement for Nuclear Power with single reactor capacity over 1 gigawatt beyond 2025..."

I trust the ExA will entertain my PoC and be able to clarify the issue(s), as following the 'paper trail' from the 2010 AoS through the dDCO (with adopted changes) is proving to be very challenging to a lay person.

I thank you for your indulgence and look forward to some clarity.

Kind regards

Ian KH Galloway
