

1. The ExA has invited responses to the comments submitted on Relevant Representations.
2. Suffolk County Council (â€˜SCC') notes the comments made by the Applicant in its Relevant Representation Report [REP1-013], which SCC has reviewed at a high level. The comments by the Applicant include a number of topic areas where SCC is in disagreement with the Applicant. These areas of disagreement are amplified in the Local Impact Report [REP1-045], and in SCC's Deadline 2 submissions including our Written Representation, our answers to the ExA's questions, and the draft Statement of Common Ground.
3. We note the comments on SCC's Relevant Representation with regard to the two/four village bypass, by Farnham Environment Residents & Neighbours association (FERN) [REP1-134] and Marlesford Parish Council [REP1-150]. For issues raised in these representations, as well as questions raised by other community representatives in relation to the transport strategy and the proposed relief road mitigation schemes, we would like to refer the ExA to SCC's Written Representation submitted at Deadline 2 which provides background and additional detail to SCC's position on the transport strategy and the relief road schemes.
4. To avoid needless duplication of material the ExA has already seen, SCC would like to refer the ExA to this already submitted information by SCC.
