

MOLLETT'S FARM

Written Representation for Deadline 2 from Mollett's Farm

Summary of this document's contents:

This document contains the written representation from Mollett's Farm to the Examining Authority at Deadline 2, for the Sizewell C development application.

We provide background and detailed information on our home, occupancy, land ownership, business and contribution to the local economy.

We then set out our objections to the SZC DCO and conclude that it should not be approved in its current form. Our objections focus primarily on the Two Village Bypass (TVB) associated development.

We provide details of the specific impacts that the TVB will have on us, our guests and our business.

We then set out the modifications and improvements that we feel the applicant should make in order to mitigate the harm their proposals will cause and highlight the redress we are seeking.

Finally, we have included a number of expert reports and other documentation to support our case.
