Dear Ms McKay

You sent me this email with an attachment on it regarding the Sizewell C Planning application. Quite honestly the only words I can use to describe this are: 'TOTAL OBFUSCATION.' The attachment went on and on, was totally incomprehensible, inaccessible and was written in such a way as to make anyone with any last remaining feelings of hope for humanity to finally give up the ghost and hand it all over to people who want to destroy us and the earth and all who we share it with.

What I'd like to know is : Are you actually listening to the people who are screaming at you NO TO SIZEWELL C? It makes NO sense economically, environmentally or in any other way. It is not useful to clothe the whole 'consultation' in this ridiculously inexplicable procedure-speak - when we are dealing with something which obviously makes NO SENSE AT ALL - ruining a beautiful ERODING heritage coastline, destroying livelihoods for short term boom time gains and long term destruction and danger for millions of years to come. Carbon footprint will be paid back in 3024? Are you sure this is a sensible way to carry on? I ask you please to look deep into what we are doing - and do whatever is in your power to STOP SIZEWELL C

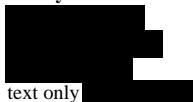

Thank you

All the best

Rix Pyke
