Copied to Ms Gregory, Case Manager (sizewellc@planninginspectorate.gov.uk)

Dear Ms McKay

Application EN010012 for The Sizewell C Project by NNB Generation Company (SZC) Limited ("SZC Co.")

Further to the publication of the Rule 8 letter on 21 April 2021 (Examination Library ref. [PD-015](#)) and the Rule 8(3) letter published on 18 June 2021 (Examination Library ref. [PD-027](#)), we write to provide SZC Co.'s written submissions for Deadline 3.

As requested in the Rule 8 letter, we are submitting a separate letter confirming SZC Co.'s request to attend and speak at the Issue Specific Hearings.

1. SZC Co.'s Deadline 3 Submissions

Appendix A of this letter contains a table that lists the Deadline 3 submissions made on behalf of SZC Co.

For each document, the table provides the document name, reference, description and confirmation of whether it is a standalone document or supersedes a previously submitted document.

2. Draft Development Consent Order

SZC Co. wishes to minimise the number of updated versions of application documents that are submitted throughout the Examination in order to lessen the amount of time that Interested Parties and the Examining Authority need to spend reviewing documents at each Examination deadline. Therefore, unless otherwise requested by the Examining Authority, SZC Co.'s approach is only to submit an updated version when substantive updates to a document have been made.

For the Draft Development Consent Order (Examination Library ref. [REP2-015](#)), only very minimal updates have been made at this Deadline 3, whereas by Deadline 5 (23 July 2021) more substantive updates are expected to be available. SZC Co. therefore intends to submit the next version of the Draft Development Consent Order at Deadline 5 rather than at this Deadline 3.

We trust that this approach is acceptable to the Examining Authority.

3. Taking Matters Further

Please do not hesitate to contact me if I can help in any way to clarify further any matters associated with this letter.

Yours sincerely
