To Whom it may concern.

I have grave concerns about volume of traffic, congestion, and safety issues if Sizewell C goes ahead. The local roads are not able to cope with that volume of traffic and despite EDF making some allowances they clearly are inadequate.

Also a large proportion of work force will be sourced outside of Suffolk.

Most crucially tourism and wildlife areas that are unique to Suffolk will be lost forever.

Wildlife habitat is created by wildlife not humans .

Finally surely the fact that erosion on East Coast is increasing at such an alarming rate makes it a ridiculous choice

Suffolk already is home to numerous off shore wind farms and more on way with an impact on county.

Enough please

Regards

S Wood
