Subject: Objection to the proposed planning permission
Date: 19 June 2021 15:49:58

I strongly object to the proposed planning permission for Sizewell C and D.

Because:

This a time of climate uncertainty already affecting our fragile coast and the marine environment Construction on the scale proposed will accelerate the problems

The destruction of natural habitats and its wild life. Inadequate plans to compensate for this.

Doubts about the security and integrity and safety if the Chinese have responsibility. (recent news tells of failures in a similar Chinese construction which is the same design as Hinkley Point Power Station and the one proposed here)

Unresolved issues around the nuclear waste
