I am horrified to read of the proposal to build Sizewell C, especially as I see part of it will be on Sizewell marshes, a designated site of special scientific interest...

The damage it will do to the local wildlife does not bear thinking about, apart from the disruption to local people & businesses!

And as for the plan to build enormous car parks at Wickham Market & Darsham for 3000 vehicles - it beggars belief!

Please rethink this horrendous plan NOW!

Regards,
Sonia Elliott,
