To the Planning Inspectorate, we are writing to object to the proposed development of Sizewell C.

The Suffolk Coastal area and the proposed site and its environs are fragile areas both in terms of their natural beauty and biodiversity. I consider that whatever strategies to mitigate the destruction of these areas are put in place the beauty and habitat will be lost forever.

The infrastructure required for the building of this project will in itself cause loss of amenity to residents of this special area for many years to come. It is hard to imagine anyone who would not be impacted.

Much of the local economy depends upon tourism, it is hard to imagine the devastation for businesses and employees that the proposed development will cause.

We do hope that this objection will be taken seriously; we consider this is the wrong site for the proposed development. Do feel free to contact us should you wish to discuss this further.
