Dear Sir / Madam

Alongside my day-job as a Project Director at Agilia Infrastructure Partners, I also head the Policy function for the Sizewell C Consortium – a business-led group of more than 200 UK-based businesses who are supporting the construction of Sizewell C.

Having grown up in Suffolk, and subsequently moving away to find the type of high-skilled and rewarding work I enjoy, I passionately believe that Sizewell C will be a catalyst for economic and social opportunity throughout East Anglia. Given the multidisciplinary nature of the types of work required to build Sizewell C, it will also provide a broad spectrum of economic opportunity, creating and fostering a sustained and equitable impact in the community which will be both significant and positive.

I would like to request an audience of the panel to present the socio-economic impacts the Consortium believes the project can bring, and demonstrate to the panel that the positive impact from the project is underestimated within the DCO documentation.

In particular, I would bring the panel's attention to the [report](#) which we commissioned from Ernst and Young and the role Sizewell C has to play in creating up to 73,000 jobs in the East of England.

I hope you will allow me to make these points to the panel.

Yours sincerely,

Henry

Henry Sutcliffe
